# Andrey Leonchuk

Frontend Developer  
Kazakhstan

## Summary

I travel around the world.

Hobbies:

- Since 2021 I have been studying the crypto industry, investing in projects and NFT;
- I teach people about cryptocurrencies;
- Worked as a frontend developing mentor;
- I doing ecstatic dance practices as a dj;
- I give joy and energy to my readers in the telegram;
- I write electronic music;
- Yoga and sports

About skills:

- React, redux, typescript: 3+ years
- Layout and other: 4+ years
- Node js: half a year
- Learning React Native

I worked as a freelance web designer. Designed at previous jobs:

- I know ui/ux
- I know how to translate business ideas into design
- Good knowledge of photoshop and figma

Interested projects:

The most ideal option is a mobile application that combines art (music, drawing, nft) and blockchain.

I am gladly open for cooperation in other projects.

Desirable payment in usdt

---

## Experience

## Autopiter

Frontend Developer

March 2020 - March 2022 (2 years 1 month)

The team consisted of 4 fronts and 1 backend. For 2 years, my main tasks were: the development of the mobile version of the site, the main page, the marketplace, the garage system (you need to register to see). In part, these tasks also included writing code on the backend and integrating third-party API. React, redux, typescript were used for all tasks.

## Sloboda Studio

Frontend Developer

May 2021 - August 2021 (4 months)

Worked as an outsourced developer

## HTML Academy

Education Mentor

November 2019 - July 2021 (1 year 9 months)

I worked as a mentor for guys who were trained as a developer

## RoboForex

Frontend Developer

March 2018 - March 2020 (2 years 1 month)

It was my starting point to web developing. I have made a lot of pages using js, css and html. The hardest task was an interactive usd/euro graphic with ability to point any event on the graphic line and switch it by clicking or sliding. I've made it only with vanilla js.

---

## Education

Университет ИТМО

Бакалавр, Ядерная физика · (2011 - 2017)
